

FELIPE I. ESTAY

Sociologist · PhD Candidate in Sociology (UC) · Inequality, Poverty, and Social Policy

Santiago, Chile · +56 9 6637 1200 · fiestay@uc.cl

ACADEMIC PROFILE

Sociologist with over 20 years of experience in applied social research and public policy. PhD in Sociology (Pontificia Universidad Católica de Chile), with a doctoral dissertation on perceptions of inequality and economic system justification in Chile, based on survey experiments. MSc in Social Policy and Planning (London School of Economics) and MSc in Sociology (University of Bristol). Author of peer-reviewed publications on social exclusion and social policy. Two decades of experience in analyzing censuses, surveys, and administrative records using advanced quantitative methods (R, Stata), applied to the design and evaluation of social policies.

RESEARCH INTERESTS

- **Inequality and social attitudes (primary line — doctoral thesis):** perceptions of inequality, economic system justification, effects of information on political attitudes; design and analysis of survey experiments.
- **Poverty, exclusion, and homelessness:** measurement and typologies of extreme exclusion using census microdata and administrative records (latent class analysis, external validation with distal variables); comparative social policy.
- **Quantitative methodology:** quasi-experimental designs (regression discontinuity), survey experiments, disability measurement (Washington Group), program evaluation.
